

Line Operator Take Over:

How To Empower Line
Workers To Be Active
During Prep & Install
of New Equipment

Webinar Speaker Provided By

BURNS  **MCDONNELL**

Incorporating Virtual FATs For New Equipment

PROS

- Reduce company travel expenses
- Reduce number of employees at in person meetings (less time away from regular duties)
- Maintain a Factory check of equipment while being more flexible in scheduling
- Hold suppliers accountable to the specification requirements
- Get more line operators involved in FATs

CONS

- Missed issues with programming considerations and integration issues
- Automation controls not fully tested in how it might interact with plant systems overall
- Not fully realizing nuances in equipment set up
- Miss out on the information conversations had while on the factory floor with supplier representatives
