| | 1. Product and Company Identification |
|--------------------|--|
| Product Code: | JP-K88 |
| Product Name: | JP-K88 |
| Company Name: | Hitachi America, Ltd |
| | 50 Prospect Ave |
| | Tarrytown, NY |
| Web site address: | www.hitachi-america.us/ice/inkjetprinters/ |
| Emergency Contact: | Chemtrec |

2. Hazards Identification

Flammable Liquids, Category 2 Acute Toxicity: Oral, Category 5 Acute Toxicity: Inhalation, Category 5 Skin Corrosion/Irritation, Category 2 Serious Eye Damage/Eye Irritation, Category 2 Germ Cell Mutagenicity, Category 1B Toxic To Reproduction, Category 1B Specific Target Organ Toxicity (single exposure), Category 1 Specific Target Organ Toxicity (single exposure), Category 2 Specific Target Organ Toxicity (single exposure), Category 3 Specific Target Organ Toxicity (repeated exposure), Category 1 Specific Target Organ Toxicity (repeated exposure), Category 2 Aspiration Toxicity, Category 2

(800)424-9300

| GHS Signal Word: | Danger | |
|--------------------------------------|---|------------|
| GHS Hazard Phrases: | Highly flammable liquid and vapor. | |
| | May be harmful if swallowed. | |
| | May be harmful if swallowed and enters airways. | |
| | Causes skin irritation. | |
| | Causes serious eye irritation. | |
| | May be harmful if inhaled. | |
| | May cause respiratory irritation. | |
| | May cause genetic defects state route of exposure if it is conclusively proven t other routes of | that no |
| | exposure cause the hazard. | |
| | May damage fertility or the unborn child . | |
| | Causes damage to organs | |
| | May cause damage to organs . | |
| | Causes damage to organs through prolonged or repeated exposure. | |
| | May cause damage to organs through prolonged or repeated exposure. | |
| GHS Precaution Phrases: | Obtain special instructions before use. | |
| | Do not handle until all safety precautions have been read and understood. | |
| | Keep away from heat/sparks/open flames/hot surfaces No smoking. | |
| | Keep container tightly closed. | |
| | Use explosion-proof electrical/ventilating/lighting equipment. | |
| | Use only non-sparking tools. | |
| | Take precautionary measures against static discharge. | |
| Licensed to Hitachi Ink Research and | Development: MIRS MSDS, (c) A V Systems, Inc. | GHS format |

| GHS Response Phrases: | Do not breathe dust/fume/gas/mist/vapours/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Use personal protective equipment as required. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. IF ON SKIN: Wash with plenty of soap and water. IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|--|--|
| | IF exposed: Call a POISON CENTER or doctor/physician. IF exposed or concerned: Get medical attention/advice. Call a POISON CENTER or doctor/physician if exposed or you feel unwell. Call a POISON CENTER or doctor/physician if you feel unwell. Get medical attention/advice if you feel unwell. Specific treatment see section 4 on this label. Do NOT induce vomiting. If skin irritation occurs, get medical advice/attention. If eye irritation persists, get medical advice/attention. Take off contaminated clothing and wash before re-use. |
| GHS Storage and Disposal Phrases: | Store in cool/well-ventilated place. Store locked up. Dispose of contents/container listed in 40 CFR Parts 261. |
| Potential Health Effects (Acute and Chronic): | Chronic: Chronic inhalation may cause effects similar to those of acute inhalation. Prolonged or repeated skin contact may cause defatting and dermatitis. Animal studies have reported that fetal effects/abnormalities may occur when maternal toxicity is seen. Chronic overexposure to vapors may cause lung damage. Hazards not otherwise classified (HNOC) or not covered by GHS. |
| Inhalation: | Causes respiratory tract irritation. Inhalation of vapors may cause drowsiness and dizziness. May cause central nervous system effects such as nausea and headache. Neurobehavioural effects of exposure to MEK (200 ppm for 4 hrs) were studied with 137 volunteers. There were no statistically significant effects observed in biochemical, psychomotor, sensorimotor and psychological tests. |
| Skin Contact: | May be absorbed through the skin in harmful amounts. Repeated or prolonged exposure may cause drying and cracking of the skin. Only one human case of skin sensitization was located. Negative results were obtained in an animal test; MEK did not produce skin sensitization in the mouse ear thickness test. |
| Eye Contact: | Causes eye irritation. Vapors may cause eye irritation. Animal evidence suggests that MEK is a moderate to severe eye irritant. |
| Ingestion: | May cause irritation of the digestive tract. Possible aspiration hazard. May cause central nervous system depression. Animal evidence suggests that MEK can be aspirated (inhaled) into the lungs during ingestion or vomiting. |
| | |

| CAS # | Hazardous Con | nponents (Chemical Name) | Concentration | | |
|---|--------------------|--|---|--|--|
| 78-93-3 | Methyl ethyl keto | | 65.0 -75.0 % | | |
| 64-17-5 | Ethyl alcohol | | 15.0 -25.0 % | | |
| NA | Proprietary chro | me complex | <10.0 % | | |
| | | 4. First A | Aid Measures | | |
| Emergency Procedures: | and First Aid : | Consult a physician. Show dangerous area. | this safety data sheet to the doctor in attendance. Move out c | | |
| n Case of Ir | nhalation: | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid. If breathed in, move person into fresh air. Consult a physician. | | | |
| In Case of Skin Contact: | | In case of contact, flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical aid if irritation develops and persists. Wash clothing before reuse. Wash off with soap and plenty of water. Consult a physician. | | | |
| In Case of E | ye Contact: | In case of contact, immediately flush eyes with plenty of water for a t least 15 minutes. Get medical aid. Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. | | | |
| In Case of Ingestion: Potential for aspiration vomiting unless directer an unconscious persor | | | on if swallowed. Get medical aid immediately. Do not induce sted to do so by medical personnel. Never give anything by mouth to on. If vomiting occurs naturally, have victim lean forward. Do NOT se mouth with water. Consult a physician. | | |
| Signs and S Exposure: | symptoms Of | The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11 | | | |
| Note to Physician: Tr | | Treat symptomatically and | Treat symptomatically and supportively. | | |

| | | 6. Acc | idental Release N | leasures | |
|---|---|---|--|--|---|
| Protective E Emergency Environmer Steps To Be | Precautions, Equipment and Procedures: ntal Precautions: Taken In Case Released Or | Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. For personal protection see section 8. Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Use proper personal protective equipment as indicated in Section 8. Spills/Leaks: Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Clean up spills immediately, observing precautions in the Protective | | | |
| | | ventilation. Co cleaner or by | ontain spillage, and then c | of ignition. Use a spark-pr ollect with an electrically pr container for disposal acc | rotected vacuum |
| | | 7. | Handling and Sto | orage | |

| NA Proprietary chrom Respiratory Equipment (Specify Type): Eye Protection: | | Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi- purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Wear chemical splash goggles. Face shield and safety glasses. Use equipment for eye | | | |
| Protostiva | | NIOSH (US) o | r EN 166(EU). | opropriate government star | |

| | must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. |
|---|--|
| Other Protective Clothing: | Wear appropriate protective clothing to prevent skin exposure. Impervious clothing. Flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. |
| Engineering Controls (Ventilation etc.): | Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits. Ventilation fans and other electrical service must be non-sparking and have an explosion-proof design. |
| Work/Hygienic/Maintenance Practices: | Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. |
| Environmental Exposure Controls: | Prevent further leakage or spillage if safe to do so. Do not let product enter drains. |
| | 9. Physical and Chemical Properties |
