# HITACHI Inspire the Next

Product Code: Product Name:

## SAFETY DATA SHEET JP-T75

1. Product and Company Identification

JP-T75

JP-T75

Page: 1

Product Name:	JP-175			
Trade Name:	JP-T75			
Company Name:	Hitachi America, Ltd			
	50 Prospect Ave			
	Tarrytown, NY			
Web site address:	www.hitachi-america.us/ice/inkjetprinters/			
Emergency Contact:	Chemtrec			
	(800)424-9300			
2. Hazards Identification				
Flammable Liquids, Catego	ry 2			
Acute Toxicity: Oral, Catego	ory 4			
Skin Corrosion/Irritation, C	ategory 2			
Serious Eye Damage/Eye Ir	ritation, Category 1			
Germ Cell Mutagenicity, Ca	tegory 2			
Aquatic Toxicity (Chronic),	Category 3			
	$\wedge$ $\wedge$			
GHS Signal Word:	Danger			
GHS Hazard Phrases:	Highly flammable liquid and vapor.			
GHS Hazalu Fillases.	Harmful if swallowed.			
	Causes skin irritation.			
	Causes serious eye damage.			
	Suspected of causing genetic defects.			
	Harmful to aquatic life with long lasting effects.			
GHS Precaution Phrases:	Obtain special instructions before use.			
Gho riecaution rinases.	Do not handle until all safety precautions have been read and understo	od		
	Keep away from heat/sparks/open flames/hot surfaces No smoking.	00.		
	Keep container tightly closed.			
	Use explosion-proof electrical/ventilating/lighting equipment.			
	Use only non-sparking tools.			
	Take precautionary measures against static discharge.			
	Wash hands thoroughly after handling.			
	Do not eat, drink or smoke when using this product.			
	Avoid release to the environment.			
	Wear protective gloves/protective clothing/eye protection/face protectio	n.		
GHS Response Phrases:	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you for	eel unwell.		
·	IF ON SKIN: Wash with plenty of soap and water.			
	IF ON SKIN (or hair): Remove/take off immediately all contaminated clo	othing. Rinse skin		
	with water/shower.			
	IF IN EYES: Rinse cautiously with water for several minutes. Remove c	ontact lenses, if		
	present and easy to do. Continue rinsing.			
	IF exposed or concerned: Get medical attention/advice.			
	Immediately call a POISON CENTER or doctor/physician.			
	Rinse mouth.			
	If skin irritation occurs, get medical advice/attention.			
	Take off contaminated clothing and wash before re-use.			
iconsol to Hitachi lak Pasaarah and Davelopment. MIPS MSDS (a) A V Systems Inc.				
icensed to Hitachi Ink Research and Development: MIRS MSDS, (c) A V Systems, Inc. GHS format				

GHS Storage and Disposal	Store in cool/well-ventilated place.
Phrases:	Store locked up.
	Dispose of contents/container in accordance with local regulations.
Potential Health Effects (Acute and Chronic):	<ul> <li>Chronic: Prolonged or repeated skin contact may cause dermatitis. Prolonged or repeated exposure may cause nausea, dizziness, and headache. Hazards not otherwise classified (HNOC) or not covered by GHS. None.</li> <li>Prolonged or repeated skin contact may cause defatting and dermatitis. Chronic exposure may cause blood effects.</li> </ul>
Inhalation:	Causes respiratory tract irritation. Inhalation of high concentrations may cause narcotic effects. May be harmful if inhaled. Inhalation of vapors may cause nausea, vomiting, dizziness, and loss of consciousness. Material is irritating to mucous membranes and upper respiratory tract. Harmful if inhaled. May cause narcotic effects in high concentration. Inhalation of vapors may cause drowsiness and dizziness.
Skin Contact:	Causes skin irritation. May be harmful if absorbed through the skin. May cause skin irritation.
	Skin Absorption: May be harmful if absorbed through the skin. Repeated or prolonged exposure may cause drying and cracking of the skin.
Eye Contact:	Causes eye irritation.
Ingestion:	May cause irritation of the digestive tract. May cause unconsciousness. May be harmful if swallowed. May cause headache, nausea, fatigue, and dizziness. Will not occur. May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May cause central nervous system depression.
3.	Composition/Information on Ingredients
CAS # Hazardous Comp	ponents (Chemical Name) Concentration

CAS #	Hazardous Components (Chemical Name)	Concentration
107-87-9	2-Pentanone	30.0 -40.0 %
64-17-5	Ethyl alcohol	20.0 -30.0 %
68308-64-5	Quaternary ammonium compounds, coco alkylethyldimethyl, Et sulfates	5.0 -10.0 %
108-10-1	Methyl isobutyl ketone	1.0 -5.0 %
108-95-2	Phenol	1.0 -3.0 %
71-36-3	n-Butyl alcohol	1.0 -5.0 %
109-60-4	Propyl acetate	1.0 -5.0 %
67-63-0	Isopropyl alcohol	1.0 -5.0 %
67-56-1	Methanol	< 1.0 %
61788-93-0	Amines, coco alkyldimethyl	< 0.5 %

	4. First Aid Measures
Emergency and First Aid Procedures:	Consult a physician. Show this safety data sheet to the doctor in attendance. Move out o dangerous area.
In Case of Inhalation:	Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid. Do NOT use mouth-to-mouth resuscitation. If breathed in, move person into fresh air. Consult a physician. If inhaled, remove to fresh air.
In Case of Skin Contact:	Get medical aid. Flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Wash off with soap and plenty of water. Consult a physician. In case of contact, immediately wash skin with soap and copious amounts of water.
In Case of Eye Contact:	Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid. Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes. Flush eyes with water as a precaution.
In Case of Ingestion:	Never give anything by mouth to an unconscious person. Get medical aid. Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water. Rinse mouth with water. Consult a physician. If swallowed, wash out mouth with water provided person is conscious. Call a physician.
Signs and Symptoms Of Exposure:	The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11 Contact with eyes can cause redness, tearing, and blurred vision. Prolonged or repeated contact with skin can cause defatting and dermatitis. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.
Note to Physician:	Treat symptomatically and supportively.
	5. Fire Fighting Measures
Flash Pt:	> 7.00 C (44.6 F) Method Used: Estimate
Explosive Limits:	LEL: UEL:
Autoignition Pt:	425.00 C (797.0 F)
Suitable Extinguishing Medi	ia:Use water spray to cool fire-exposed containers. Water may be ineffective. Use water spray, dry chemical, carbon dioxide, or alcohol-resistant foam. Suitable: For small
	(incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water. Use foam, dry chemical, or carbon dioxide.
Fire Fighting Instructions:	As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Flammable liquid and vapor. Vapors are heavier than air and may travel to a source of ignition and flash back. Vapors can spread along the ground and collect in low or confined areas. Wear self contained breathing apparatus for fire fighting if necessary. Further information. Protective Equipment: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes. Specific Hazard(s): Flammable Liquid. Emits toxic fumes under fire conditions. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Will burn if involved in a fire. Containers may explode in the heat of a fire.
Flammable Properties and Hazards:	Carbon oxides, EXPLOSION HAZARDS. Vapor may travel considerable distance to source of ignition and flash back. Container explosion may occur under fire conditions. Forms explosive mixtures in air.
Lippond to Litrahi Jak Dapaset and	

Licensed to Hitachi Ink Research and Development: MIRS MSDS, (c) A V Systems, Inc.

	6. Accidental Release Measures	
Protective Precautions, Protective Equipment and Emergency Procedures:	Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe a Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. For personal protection see section 8.	areas.
Environmental Precautions:	Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Methods and materials for containment and cleaning up: Contain spillage, and the collect with an electrically protected vacuum cleaner or by wet-brushing and place container for disposal according to local regulations (see section 13).	n
Steps To Be Taken In Case Material Is Released Or Spilled:	Use proper personal protective equipment as indicated in Section 8. Spills/Leaks: Absorb spill with inert material (e.g. vermiculite, sand or earth), then pro- in suitable container. Clean up spills immediately, observing precautions in the Pro- Equipment section. Remove all sources of ignition. Use a spark-proof tool. Provide ventilation. Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). PROCEDURE TO BE FOLLOWED IN CASE OF LEA SPILL. Evacuate area. Shut off all sources of ignition. PROCEDURE(S) OF PERSONAL PRECAUTION(S) Wear respirator, chemical safety goggles, rubber boots, and heavy rubber gloves. Methods for cleaning up. Cover with dry-lime, sand, or soda ash. Place in covered containers using non-spat tools and transport outdoors. Ventilate area and wash spill site after material pickut complete. Soak up with inert absorbent material and dispose of as hazardous was Keep in suitable, closed containers for disposal. Wear a self contained breathing apparatus and appropriate personal protection. (See Exposure Controls, Personal Protection section). Do not let this chemical enter the environment.	AK OF arking ip is ite.
	7. Handling and Storage	
Precautions To Be Taken in Handling:	Wash thoroughly after handling. Remove contaminated clothing and wash before r Use with adequate ventilation. Ground and bond containers when transferring mate Avoid contact with eyes, skin, and clothing. Empty containers retain product residu (liquid and/or vapor), and can be dangerous. Take precautionary measures agains discharges. Keep container tightly closed. Keep away from heat, sparks and flame not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to b sparks or open flames. Avoid breathing dust, mist, or vapor. Avoid contact with skin eyes. Avoid inhalation of vapor or mist. Use explosion-proof equipment. Keep away sources of ignition - No smoking. Take measures to prevent the build up of electros charge. For precautions see section 2. User Exposure: Avoid breathing vapor. Avoi prolonged or repeated exposure. Use spark-proof tools and explosion proof equipm Do not get in eyes, on skin, or on clothing. Do not ingest or inhale. Use only in a chemical fume hood.	erial. e, t stati . Do heat, n and y from static id
Precautions To Be Taken in Storing:	Keep away from sources of ignition. Store in a cool, dry place. Store in a tightly clo container. Keep container tightly closed in a dry and well-ventilated place. Container which are opened must be carefully resealed and kept upright to prevent leakage. Recommended storage temperature: -2010 deg.C. Handle and store under iner Suitable: Keep container closed. Keep away from heat, sparks, and open flame.	ers
	Unsuitable: May form peroxides on contact with air. Store under inert gas. Hydrolys readily. Hygroscopic.	ses

		experienced. Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi- purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Hand: Compatible chemical-resistant gloves. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant respirator use.			
protection teste NIOSH (US) or eyeglasses or o		protection tested an NIOSH (US) or EN eyeglasses or cher	I splash goggles. Face shield and safety glasses. 	selected according to the concentration and amount of the dangerous substance at the specific workplace. Complete suit protecting against chemicals.
Engineering Controls	Facilities storing or utilizing this material should be equipped with an eyewash facility and
(Ventilation etc.):	a safety shower. Use adequate general or local exhaust ventilation to keep airborne
	concentrations below the permissible exposure limits. Ventilation fans and other
	electrical service must be non-sparking and have an explosion-proof design. Safety
	shower and eye bath. Use nonsparking tools. Mechanical exhaust required. Use
	explosion-proof ventilation equipment. Use only under a chemical fume hood.
Work/Hygienic/Maintenance	Handle in accordance with good industrial hygiene and safety practice. Wash hands
Practices:	before breaks and at the end of workday. Wash thoroughly after handling. Wash
	contaminated clothing before reuse.

	10. Stability and Reactivity
Stability:	Unstable [ ] Stable [ X ]
Conditions To Avoid - Instability:	ignition sources, Excess heat, Heat, flames and sparks. Extremes of temperature and direct sunlight. May form peroxides on contact with air. Materials to Avoid: Oxidizing agents, Strong bases,
	HAZARDOUS DECOMPOSITION PRODUCTS. Incompatible materials.
Incompatibility - Materials To Avoid:	Reducing agents, Strong bases, Strong oxidizing agents, Oxidizing agents, Alkali metals Ammonia, Peroxides, No data available. Bases, Strong acids, Halogens, acids, Acid anhydrides, Aluminum, Halogenated
Hazardaya Dagampagitian ar	compounds, Acids.
Byproducts:	Carbon monoxide, Other decomposition products: No data available. In the event of fire see section 5. Carbon dioxide.
Possibility of Hazardous Reactions:	Will occur [ ] Will not occur [ X ]
Conditions To Avoid - Hazardous Reactions:	Vapors may form explosive mixture with air.
	11. Toxicological Information
Toxicological Information:	Epidemiology: No information found. Teratogenicity: No information available. Reproductive Effects: Mutagenicity: Neurotoxicity: Germ cell mutagenicity: No data available. Reproductive toxicity. Aspiration hazard: Specific target organ toxicity - single exposure: Specific target organ toxicity - repeated exposure:
Irritation or Corrosion:	Skin corrosion/irritation. No data available. Serious eye damage/eye irritation: Provide adequate ventilation. Result: Mild eye irritation Serious eye damage/eye irritation Eyes -rabbit. Eyes - rabbit - Result: Eye irritation - 24 h.
Sensitization:	No data available.
Chronic Toxicological Effects:	Specific target organ toxicity - single exposure: No data available. Specific target organ toxicity - repeated exposure: Inhalation. Oral. May cause drowsiness or dizziness.
Carcinogenicity/Other Information:	CAS# 107-87-9: Not listed by ACGIH, IARC, NTP, or CA Prop 65. IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. IARC: 2B - Group 2B: Possibly carcinogenic to humans 3. IARC: 3 -Group 3: Not classifiable a to its carcinogenicity to humans. NTP: Reasonably anticipated to be a human carcinoge Iron-Dextran. ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. CAS# 109-60-4: Not listed by ACGIH, IARC, NTP, or CA Prop 65. This product is or contains a component that is not classifiable as to its carcinogenicity based on its IARC, ACGIH, NTP, or EPA classification.
